

HARRISON COUNTY HOSPITAL

YourHealthLink

Connecting **YOU** To
Your Personal Health Record.

What is YourHealthLink?

YourHealthLink gives Harrison County Hospital patients convenient online access to portions of your electronic medical record (EMR) anytime, day or night. Whether you're at work, on the road, or at home, you can view your lab results, appointment information, medications, immunizations, allergies and more. All information is stored securely.

YourHealthLink provides a convenient method of communication with your physician's office. Send **non-urgent** messages or request appointments from your computer or mobile device.

Access or manage **YourHealthLink**
with the HealtheLife Mobile app.

Where *Care*
Comes First

What YourHealthLink Means To You?

- You can review medical information online: your medications, immunizations, allergies, medical history, results and visit summaries.
- Stay in touch with your physician's office by sending a request for medical advice.
- **YourHealthLink** is not an email system, but you are able to securely send a **non-urgent** message to your physician or nurse. It should not be used to communicate immediate medical concerns.
- Request appointments online.
- View details of past and upcoming appointments.
- Access family members' medical records.
- Peace of mind because we've taken extra steps to ensure that your private health information remains confidential. Your records are safe from unauthorized access because **YourHealthLink** is password-protected and information is delivered via an encrypted connection.

Important: **YourHealthLink** is not to be used for urgent needs. For medical emergencies, dial 911.
