#	OTHER (PLEASE SPECIFY)	DATE
1	Full time w/benefits jobs in community	11/1/2019 10:09 AM
2	We definitely need more information out to the citizens of our community about the services that are available to them such as the services at the Health Dept and how individuals can qualify for that help.	8/4/2019 11:26 PM
3	Recycling incentives, conservation practices, car pooling, sidewalks, more recreation facilities i.e. pickle ball courts, bicycle shoulders/trails, better crosswalks in town	8/2/2019 2:47 PM
4	W/C medical transportation is a huge issue in this area. People in their homes and on dialysis cannot find transport to and from. Difficulty in getting to MD appts as well. Local Long Term Care facilities do not have a provider for W/C Medicaid residents.	8/1/2019 1:51 PM

1	Need a splash pad for kids	11/1/2019 1:11 PM
2	Education needed for those who don't qualify for Jump Start, Head Start, or On My Way Pre-K but don't make enough for private Pre-K.	11/1/2019 1:02 PM
3	Harrison County also needs resources for immigrant families and ESL classes for children and adults. Need to get them settled in the community, resources for citizenship tests, lawyers, etc.	11/1/2019 12:53 PM
4	Outlaw tobacco and electronic tobacco products.	11/1/2019 12:31 PM
5	Several local employers offer benefits, but only after 1 year and average of 35 hours/week.	11/1/2019 10:09 AM
6	We need a better hospital. One that is able to treat patients instead of transferring them to Louisville all the time. We have allowed smokers to smoke anywhere they like without recourse. High speed internet would be nice. The line is 1000 feet from my house and Windstream refuses to run a line there.	8/21/2019 6:17 PM
7	The tobacco education needs to start in elementary school, usually with some kind of a D.A.R.E. program. More information on negativity of tobacco use. Especially how hard it is to stop, and in H.School teaching the negativity of smoking while pregnant and the harmful things that can happen to the baby in utero, and the lasting effects on the baby once they are born.	8/20/2019 11:44 PM
8	High speed internet is something the entire county needs in order to retain and develop employees, programs and jobs. We have to keep up with our neighboring cities if we are going to keep our community intact and developed. Working from home, access to information and technology are becoming a given not an after thought. We need to be a leader in getting technology for everyone and we will see things lead in other directions.	8/20/2019 10:28 AM
9	HIGHER PAY SCALE WOULD KEEP MORE EMPLOYEES FROM LEAVING THE COUNTY	8/20/2019 9:24 AM
10	Community partners have done a good job in addressing the need.....need funding to provide services as mentioned	8/14/2019 2:44 PM
11	none	8/5/2019 5:55 PM
12	The southern part of the county towards Central, Laconia, and Mauckport need better cell phone service and access to better internet. I live near central and have no cell phone service and the internet service that is in that area is so slow and part of the time doesn't even work. People can not further their education and better themselves with out these tools available to them.	8/5/2019 8:56 AM
13	I've lived in Harrison County for over 17 years and that entire time have sought employment in the county to no avail. Bring in more higher paying jobs.	8/2/2019 10:28 PM
14	High speed in ternet services are needed even in outer laying small towns and rural setting. So many services I.E education, entertainment, banking, VOP phone service are available through high speed internet but if you only have slow internet speed we can't use them.	8/2/2019 4:27 PM
15	Been in this county for 20 years and am witnessing improvements to recreation opportunities for young and old. Roads, however, lack safe shoulders, line markings still. More signs seem almost annoying. Littering is a real eyesore. Trash including furniture and appliances are being dumped along the roadway adding to drainage problems. Grass cutting into the roads and onto the sidewalks goes unchallenged and poses safety issues with motorcycles and bicycles and is unfriendly for pedestrians to have to walk through. Internet access is very slow. Priority is given to businesses, but home businesses would benefit, too. Job opportunity is a mixed bag - if one is willing to take a low paying job without benefits, there are jobs to be had in the county. As a senior, my income working two part-time jobs without collecting Social Security is less than \$20K a year with mutual funds investments. Poverty level. Young workers are forced to work out of the county in order to earn a family supporting income. That is not necessarily a bad thing, but this is not a Colorado Springs either. There are trade offs.	8/2/2019 2:47 PM

Harrison County Health Needs Survey 2019

16	Boys and Girls club offers low cost after school childcare. Very helpful for working parents and good experience for the kids. This is a very important service in our community. Thanks! Oh, also please put sidewalks on country club rd and the streets near there!	8/2/2019 9:38 AM
17	transportation is an issue in our rural county. Vaping with kids is an issue. illegal drugs continue to be an issue. Grandparents raising grandkids an issue.	8/2/2019 9:36 AM
18	We need a local home health agency. Since the only one is Harrison county closed people are doing with.	8/1/2019 6:00 PM
19	Internet is a must	8/1/2019 2:18 PM
20	E-cigarette and it's usage really needs brought up in the schools. While legal for adults, somehow kids in intermediate, junior and high schools are all getting ahold of it. I'm afraid it will lead to worse things. It is a real problem although kids don't see it that way but it is worth educating our kids in schools every year about it. It is such a real epidemic and I have had this encounter with my kids who have gotten it in the past from someone but won't tell who and I have never smoked in my life let alone ever of dreamed that I would have to deal with this problem with my kids. On another note as far as mental health goes maybe a clinic of sorts could be developed for those not only to discuss those types of problems in a therapeutic environment but also some activities to promote a positive one. One in which maybe a poll could be taken to see what activities may promote a happy and healthy environment such as life games, gardening and delivering the produce to say maybe those that serve seniors, etc. Something that may for ex. give someone with depression a feelings of self worth and importance.	8/1/2019 11:55 AM
21	Crawford County. This county is much different from Harrison County - no comparison.	8/1/2019 11:09 AM
22	Harrison co. May need mental health stuff and drug rehabs but NOT by our SCHOOLS. Put them over by the hospital. Why in the same hell would you put these places by our schools. That's crazy.	8/1/2019 10:15 AM
23	I held the same job in Harrison County for a number of years for a company that served multiplied needs in the community and worked with other local agencies. I do know there is still much that needs done but resources are seemingly limited and dollars to provide the services harder and harder to come by. I feel our community, being rural, makes it difficult to get people TO the resources they needs although I know there is a transportation service available in the area. I think a lot of people don't know what is available and the ones who really need it sometimes won't take it. I'd be happy to see more people taking pride in themselves and working again. I'm not sure how that is accomplished except by teaching people they are worthy and valuable to God and to society as a whole. I believe everyone has value and something to offer to their community.	8/1/2019 9:22 AM
24	People need to understand that e-cig's do NOT have any tobacco in them!! NONE - ZERO!! They have nicotine, at first in larger strengths to help ex-smokers NOT want the cigarettes, THEN they gradually use lesser and lesser strengths until they don't need the nicotine any more. I don't smoke OR vape, but I have seen lots of people quit smoking by this method.	7/31/2019 9:05 PM
25	none	7/31/2019 1:46 PM
26	Pay for Jobs especially in county government is suboptimal, especially for positions requiring advanced education and licensure. Economy grows when we have at least comparable salaries. Most highly trained, education, and licensed professionals work outside the county where they can make a better income	7/31/2019 12:49 PM
27	Without transportation there is no need for other services	7/31/2019 12:23 PM
